LUXURY SUITE - Quote upon enquiry

Above prices for design fees are indicative only, additional fees may apply depending on the amount of design work required and the number of items ordered. Design fees are in addition to printing costs. Prices include gst.

TURN-AROUND TIMES:

Our turn-around time on wedding orders vary depending on the amount of work required, how many stationery items you order, timely supply of wording or artwork feedback, and your chosen print method.

Letterpress and Foil takes longer than digital printed stationery, and is also more expensive, due to the plate making cost, set up time and print labour involved. We have a 2-3 day wait for printing plates alone.

ESTIMATED TIME FRAMES:

Custom Design & Letterpress/Foil - 3-4 weeks

Custom Design & Digital Print - 2-3 weeks

Signature Collection & Letterpress/Foil - 2 weeks

Signature Collection & Digital Print - 7 days

IN A RUSH? Orders can be fast-tracked so please let us know your ideal delivery deadline upon booking to ensure that we can fit you in!

SIGNATURE COLLECTIONS

Every couple that we work with is completely different. Often brides are looking for unique wedding invitations that celebrate their personal style and sets the tone for the event theming on their special day. However if Custom Design is not for you we now offer a number of pre-designed invitation styles in our Signature Collection range that have been very popular with our clients. Majority of these designs have matching RSVP or Information Cards and are able to be letterpressed, foiled or digitally printed to meet your ideal stationery budget. To keep design fees to a minimum we re-create the invitation suite with your own names and event details with no changes to the overall design aesthetic, however if you wish to personalise these styles a little more (eg, change the typeface, add a custom monogram or include a map) additional design fees will apply and are charged at the standard Studio Rate of \$80+gst per hour.
